Description

This product is an EPA registered, chlorine bearing, sodium hypochlorite solution for sanitization in the Food Service industry. It is an effective sanitizer for utensils, glassware, equipment and as a terminal sanitizing rinse in machine dishwashing. It may also be used manually as a "third sink" sanitizer or as a spray sanitizer.

Features...Benefits

- ConcentratedEconomical
- VersatileEase of Use
- No Rinse RequiredLabor Saving
- Wide Spectrum EffectiveReduces Risk
- Meets/Exceeds Public Health Authority Standards

Directions For Use

Adjust automatic dispensing equipment to provide a use solution of 100-200 ppm available chlorine. Use with a suitable chlorine test kit to ascertain that the rinsate strength does not fall below 50 ppm.

RESTAURANTS AND TAVERNS (using RINSE or IMMERSION METHODS): Prepare a 100 ppm solution. Clean equipment and surfaces in the normal manner. Sanitize by rinsing or immersing. Do not rinse after treatment. Solutions should be tested frequently with a suitable test kit and adjusted to insure the available chlorine does not drop below 50 ppm or exceed 200 ppm.

Safety Information

KEEP OUT OF REACH OF CHILDREN

DANGER: Corrosive. May cause severe skin and eye irritation or chemical burns to broken skin. Causes eye damage. Wear safety glasses or goggles and rubber gloves when handling this product. Wash after handling. Avoid breathing vapors. Vacate poorly ventilated areas as soon as possible. Do not return until odors have dissipated.

PHYSICAL OR CHEMICAL HAZARDS: STRONG OXIDIZING AGENT: Mix only with water according to label directions. Mixing this product with chemicals (e.g. ammonia, acids, detergents, etc.) or organic matter (e.g. urine, feces, etc.) will release chlorine gas which is irritating to eyes, lungs and mucous membranes.
