

HIGH ACID GERMICIDAL EMULSION BOWL CLEANER

great white™

Description

This high acid, germicidal bowl cleaner quickly removes stubborn rust, mineral deposits and scale from toilet bowls and urinals even in the hardest water conditions. When used as directed, this formulation exhibits effective disinfection against Salmonella choleraesuis, Staphylococcus aureus and Pseudomonas aeruginosa in addition to preventing odors caused by microorganisms. Efficacy tests have demonstrated that this product is an effective bactericide, in the presence of organic soil (5% blood serum).

Features...Benefits

- High-Acid FormulaFast Acting
- Effective Hospital DisinfectantRisk Reduction
- One-Step ProductLabor Saving
- Removes Rust and ScaleImproved Sanitation Perceptions
- Effective in 5% Organic Soil LoadImproved Performance

Directions For Use

For gross filth or heavy soil, a pre-cleaning step is required for disinfection.

1. To disinfect toilet bowls, flush toilet and add 2 ounces of this product directly to the bowl water. Swab bowl completely using a scrub brush or toilet mop, making sure to get under the rim.
2. To disinfect urinals, add 1 ounce of this product to 48 ounces (1 1/2 quarts) of water. Flush urinal and apply solution completely. Let stand for 10 minutes and flush.
3. For badly stained toilet bowls, flush toilet and use toilet mop to push water from the bowl over the trap. Press swab mop against bowl to remove excess water then saturate mop with 1 ounce of this product while holding bottle and applicator over bowl. Swab bowl completely making sure to get under the rim. Let stand 10 minutes then flush. Rinse applicator completely.

Safety Information

KEEP OUT OF REACH OF CHILDREN

DANGER • POISON: Causes severe eye and skin damage. Fatal or harmful if swallowed. Do not breathe vapors or fumes. Produces chemical burns. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician. For skin contact, wipe off acid gently, immediately flood surface with water, using soap freely, then cover with moist magnesia or baking soda.
