

RINSE ADDITIVE FOR DIFFICULT WATER CONDITIONS

bright & dry™

Description

This concentrated rinse additive causes water to “sheet off” dishes, glassware, etc. in machine dishwashing operations. Provides rapid drying to eliminate water spotting, while counteracting the effects of hard or alkaline water. Performs under a wide range of water hardness to prevent deposition of solids. Can be used with all types of dispensing equipment.

Features...Benefits

- ConcentratedEconomical
- Hard Water Effective . . .Improved Performance
- Prevents SpottingLabor Saving
- Speeds DryingLabor Saving
- Foam ControlledImproved Performance

Directions For Use

Place pickup tube from dishmachine dispensing system into container. Product will be automatically injected during the rinse cycle. Follow instructions on your Dishmachine Procedures poster or consult your Service Representative for additional application information.

Product Properties

COLOR: Clear Blue
ODOR: Characteristic
VISCOSITY: 25 cps
WETTING: Excellent
SOLUBILITY IN WATER: Complete
HARD WATER TOLERANCE: Very Good

Safety Information

KEEP OUT OF REACH OF CHILDREN
CAUTION: Eye irritant. In case of contact, rinse eyes with plenty of water. Seek medical attention if irritation persists.
