

4Hands™

Description

CLEARLY BETTER 4HANDS kills pathogenic bacteria on the skin in seconds, and provides residual bacterial killing power for up to four hours. This advanced formula also moisturizes and soothes the skin with a vitamin E enriched, pH balanced formula. CLEARLY BETTER 4HANDS protects your skin in several ways. First, the active ingredient Triclosan kills pathogenic bacteria effectively and quickly. Next, the rich emollient lotion provides a barrier that guards your skin against drying out. It also continues to protect the skin from harmful bacteria after subsequent hand washing. It can even retard the reaction to latex for sensitive skin types. For clearly better sanitizing, protection and skin health, give CLEARLY BETTER 4HANDS a try.

Features...Benefits

- Fast acting. Kills bacteria in seconds
- Residual protection. Lasts up to four hours
- Non-water soluble. Stands up to hand washing
- Nourishing/moisturizing. Healthier skin

Directions For Use

Wash and dry skin thoroughly. Apply a dime-sized amount onto hands giving special attention to the cuticles, under the nails and between the fingers to assure complete coverage. For best results, apply every 3-4 hours and reapply after hand washing.

Product Properties

COLOR: Opaque white
ODOR: Pleasant
pH (1%): 7-8
SPECIFIC GRAVITY: 0.983
